11 ALCOHOL BEVERAGE MANUFACTURERS SPEND \$190,000,000 IN ADVERTISING

Eleven brewers and distillers spent a combined total of \$190,000,000 for advertising in 1957, according to statistics compiled by Advertising Age.

The companies were ranked among 100 top national advertisers for 1957. Statistics covered seven major advertising media, including newspapers, magazines, television and outdoor advertising. Not included were radio and point of purchase advertising—big items.

If radio and point of purchase figures were added, the total would be much higher. Nor do these figures include advertising production costs.

The 11 companies put most of their money into newspapers (\$43,775,311). Next came magazines receiving \$28,065,165.

Recently two trade spokesmen estimated the amounts brewers and distillers spend annually for alcohol advertising. Francis M. Fitzmaurice of Four Roses distillers company says the distilled spirits industry is currently investing

more than \$100,000,000 a year in advertising and sales promotion. Edward V. Lahey, president of the United States Brewers Foundation, recently estimated that the brewing industry now spends \$200,000,000 annually for national, regional and local advertising.

These figures may be a bit conservative. In June 1957, Clippingsheet documented alcohol advertising expenditures in eight media at nearly \$400,000,000 not including the cost of ad production.

Some of the hobbies were stamps, rocks, shells, books, paper dolls, spool knitting, and pepper shakers, and model airplanes. In spelling we are having sides. The captains are Martin Laws and Charles Jacobs. In geography we are going to study New England states. During National Education Week we had 18 visitors. We have two new pupils. Their names are Linda Ross and Gerry Smith. Jack McMillin and Allan Walker counted up the children in school and there are 308. Also on Friday Barry Salway played his accordion.—Reporters, Patricia Herzog and Maryvonne Rolfe.

UNITED STATES ALCOHOLICS TOTAL FIVE MILLION

There are approximately 5,015,000 alcoholics in the United States according to the Yale Center of Alcohol Studies.

This is the largest estimate in the Center's several years of tabulations, and an increase of 293,000 in one year. The five million fig-

ure is for 1956, latest year for which necessary data is available.

Alcoholism: Numbers and Rates
Year Number Adult Population Rate per 100,000
1940 2,632,000 3,050
1945 2,876,000 3,090
1950 3,876,000 3,890
1955 4,712,000 4,380
1956 5,015,000 4,700

Yale Center statisticians are quick to point out that the numerical increases in recent years may not mean that alcoholism is increasing. The public acceptance of alcoholism as an illness may be encouraging better reporting by doctors, hospitals and others.

They also believe that the rate of alcoholism per 100,000 adult population is a more accurate picture of the size of the problem in comparison to earlier years. This rate has been increasing only gradually for some time.

how to
BE A GOOD BACK SEAT DRIVER

by Carol Lane
WOMEN'S TRAVEL DIRECTOR,
SHELL OIL COMPANY

A GOOD BACK SEAT DRIVER
CAN HELP THE MOTORIST.

HERE'S HOW!

TAKE CHARGE OF THE ROAD IN UNFAMILIAR AREAS, LOCATE ROAD SIGNS AND READ THEM ALOUD. DON'T DIVERT THE DRIVER BY JUST POINTING TO THEM.

HELP WITH LITTLE THINGS. LIGHT CIGARETTES, UNWRAP CHEWING GUM, CHANGE RADIO STATIONS, ADJUST THE HEATER.

DON'T YELL "LOOK!" WHEN YOU SEE SOMETHING INTERESTING. THIS STARTLES THE DRIVER AND DIVERTS HIS ATTENTION FROM THE ROAD.

DON'T POINT OUT OBVIOUS TRAFFIC HAZARDS, SIGNALS, ETC. I.E., DON'T BE A BAD "BACK SEAT DRIVER."

DRIVERS welcome helpful passengers. BE ONE!

NO PURCHASE LIMIT ON SERIES F AND G BONDS

All owners of Series F and G Savings Bonds today were reminded by Chester G. Abbott, Maine Savings Bonds chairman, that effective December 1, they can reinvest the proceeds of their bonds as they mature, in Series E and H Bonds without regard to the annual purchase limit of \$10,000 maturity value for each series. This privilege also applies to holders of F's and G's which already have matured but have not been redeemed.

The reinvestment privilege, open to individuals and personal trust estates since September 1, is now extended to all holders of F's and G's, except commercial banks. The offer now applies to such groups, for example, as pension and retirement trusts, guardianships and similar estates, partnerships, public and private corporations, labor unions, fraternal, civic, service, patriotic, religious and veterans' organizations.

Holders of F and G bonds who wish to purchase the E and H series with the proceeds from their matured bonds can do so at any Federal Reserve Bank or branch or through their local bank. Series E or H Bonds so purchased will be dated as of the first day of the month in which the matured F's and G's are presented for payment. To preserve the continuity of their investment, holders are urged to present them for reinvestment during the month in which they mature.

Mr. Abbott said: "This broadened privilege is in response to requests from many investment groups which have not been able to purchase Savings Bonds since Series J and K Bonds, which replaced F's and G's in 1952, were withdrawn from sale in 1957."

Series F and G Bonds were issued beginning May 1, 1941 and matured beginning May 1, 1958. Their sale was discontinued in 1952. The Series H Bond yields 3 1/2 per cent interest compounded semi-annually, when held to maturity, 8 years and 11 months. The H Bond earns the same rate at maturity, 10 years but is a current income bond paying interest by Treasury check twice a year.

God has endowed man with inalienable rights, among which are self-government, reason, and conscience.

America's First Jetliners Will Shrink Nation

First Jet Service across U.S.A. from New England starts at Boston in mid-1959

One of the most significant advances in U. S. transportation history occurs in January when American Airlines launches the first commercial jet service across the nation with 707 Jet Flagships (shown above).

The most thoroughly tested airliners ever to enter service, the huge 600 mile-an-hour 707 Flagships will trim the nonstop time between Los Angeles and New York, where they will be introduced, to an incredible 4 1/2 hours.

American's big four-engine jets will carry 112 passengers in both first-class and aircraft accommodations (56 in each) and will have considerable cargo carrying capacity. Their speed will shrink the nation another 40 per cent resulting in tremendous savings in time for passengers and shippers.

The principal improvement which may be remembered longer by the passenger than the savings in time is the superior comfort of the great new airliners. American's 707 Jet Flagships are longer, wider and roomier than the slower piston airplanes they will replace and are virtually vibration free because of the turbine engines.

Following the introduction of the 707 Jet Flagships on the transcontinental nonstop route between Los Angeles and New York, service will be expanded to include by mid-1959 San Francisco, Chicago, Dallas, Washington, D. C., Baltimore and Boston.

"Of course, there are many decent, honest union leaders who do not commit any of the offenses brought to light at the McClellan hearings. Yet they are opposed to corrective laws. This reasoning is hard to follow. Most of us do not commit robbery, but we recognize the need for laws to prevent or punish robbery."—Warren's Standard, publication of B. D. Warren Company.
